

Khairedinova Z. Z. Crimean Tatar Murzas and Beys in the Pages of Noble Genealogical Books of the Taurida gubernia // Scientific Notes of Crimea Federal V. I. Vernadsky University. Philosophy. Political science. Culturology. - 2015. - Vol. 1 (67). - № 3. - P. 163-171.

The article is devoted to the little-known theme of the formation of the Crimean Tatar nobility. Aristocratic pedigree books are a special source of the history of the privileged class. Which was recorded in the genealogy of every kind and recorded the individual indicates the documents that serve as proof of the rights of the nobility, the information on the approval of its kind in the nobility heralds the Governing Senate. The reasons for, and implications of the activities of the government, "the Commission to bring in famous Mohammedan nobility and Greek birth". At present, the history of the Crimean Tatar people is of particular interest, since some aspects are scarcely explored. Relevant today is the study of issues related to the inclusion in the legal field of the Russian Empire, caste stratification of the population Tauride province at the end of XVIII - early XIX century, in particular the Crimean Tatar peasantry. The subject of study is the legal regulation of the situation of the Crimean Tatar peasantry in the period under review. The methodological basis of the study are principles of historicism and objectivity, logic and systematic approach in the evaluation of historical events. Among the methods of investigating that have been used in the work, it is necessary to allocate the following: the chronological method (in combination with synchronous and diachronic methods), the comparative and historical method, retrospective method.

Key words: Crimean Tatar nobleman and Beys, genealogy, genealogical books, Tauride province.
